TYPE	VARIETY NAME	LEAF COLOR	LEAF CHARACTERISTICS	KEY RETAIL ATTRIBUTES	KEY GROWER ATTRIBUTES
Butter	CERVIA	Medium light green	Smooth, rounded; narrow rib	Smooth crunchy texture; sweet, mild flavor	Thick leaf
Iceberg	CHAMISAL	Medium green	Very smooth with flat ribs	Uniform, glossy appearance	HR:BI-EU: 16-26, 28, 32 BI-US:9 // IR: Rs; adaptable
Iceberg	MERIDIAN	Medium green	Round, wide	Crunchy texture	HR: BI (16-18, 20-24, 27, 28, 30-32 EU) IR: Fol
Iceberg	OMEGA 42	Dark green	Very wide; crunchy savoy texture	Excellent texture and sweet flavor	Strong performance against big vein; holds well
Iceberg	PORTOLA	Dark green	Smooth, wide; crunchy texture	High loft and weight	Strong performance against big vein; holds well
Iceberg	REGENCY 3.0	Dark green	Smooth, wide; crunchy texture	Small, compact	HR:BI-EU: 16, 18-26, 28, 32 BI-US: 7-9 // IR: Rs
Loose Leaf	9017	Bright emerald green	Wide, frilled, cut-edge; Tango type	High loft, bright color	Upright growth habit for ease of harvest
Loose Leaf	9208	Clear dark red	Frilled with narrow base & curved rib; Lolla rossa type	Rich, full color on leaf; high loft	Strong performance against downy mildew
Loose Leaf	CIELO VERDE	Bright, deep green	Frilled edge; curved, wide; thick texture	Industry standard green leaf; appealing color; high loft	Strong performance against corky root, LNSV and tipburn, thick rib for added crunch and weight
Loose Leaf	GREEN TIGER	Medium green	Glossy; oak leaf type	Thicker leaf	Upright growth habit for ease of harvest
Loose Leaf	KREMLIN	Bright green with splashes of red	Frilled margin	Rounder leaf shape, less rib	Strong performance against tipburn & bolting
Loose Leaf	MONTERRA	Dark green	Frilled edge; curved, wide; thick, savoy texture	High leaf count	Strong performance against corky root, LNSV & bolting
Loose Leaf	RED DRAGON	Burgundy red with green base	Oak leaf type	Uniform	Very upright growth habit for ease of harvest
Loose Leaf	RED TIDE	Red/purple margins, green midrib and base	Soft, buttery texture	Appealing color; good pliability	Strong performance against tipburn; adaptable
Loose Leaf	RL 2211	Reddish-bronze, green midrib and base	Round, wide	Uniform leaf shape	Strong performance against LNSV, corky root & tipburn; pairs well with Cielo Verde
Loose Leaf	SARATOGA	Deep burgundy red, with green at margins	Frilled edge; Lolla rossa type	Intense, shimmery color	Upright growth habit; strong performance against downy mildew
Loose Leaf	WIZARD	Medium green	Deeply lobed & frilled; Tango type	Adds high loft	Very upright growth habit for ease of harvest
Loose Leaf	ZORRO	Rich medium dark green	Smooth teture; very frilly margins	Unique glossy sheen	Strong performance against LNSV, tipburn & bolting
Romaine	7436	Deep green	Wide leaf with savoy texture	High leaf count; extremely uniform	Baby leaf or small stature full heads; good tipburn tolerance
Romaine	9424	Bright apple green	Smooth, serrated edge; slightly cupped	Sturdy, holds well; high loft	Upright growth habit for ease of harvest
Romaine	HITCHHIKER	Medium green	Smooth, oval shape	High uniformity	Adaptable in many conditions
Romaine	KINGPIN	Medium green	Slight savoy leaf, thicker rib	High uniformity	Strong performance against corky root; good bolt tolerance
Romaine	TABOO	Dark burgundy	Smooth oval top with small stems	Intense leaf color	Very upright growth habit for ease of harvest

Disease Terminology: HR = High Resistance; IR = Intermediate Resistance
Disease Abbreviation Code: BI - Downy mildew, Fol - Fusarium wilt, LNSV - Lettuce Necrotic Stunt Virus, Rs - Corky root

WHITE LADY F1	Turnip	25-28	Medium green / greenish-white	Oval; slightly wavy; smooth	Milder flavor, holds well	Uniform size & growth rate

DISCLAIMER: Claims and other disclosed information are based on our observations and/or information from other sources. Crop performance depends on the interaction between the genetic potential of the seed, its physiological characteristics, the environment, including management, and other uncontrollable factors that may alter expected performance. Statements on the reaction of varieties to a specific pathogen, pest or stress are based on evaluation under defined conditions. These reactions can be affected by changes in environmental and biological factors, especially new pathogen races, pest biotypes or vectors of disease agents. Therefore, we give no warranty, express or implied, for crop performance relative to the information given; nor do we accept any liability for any loss, direct or consequential, that may arise from any cause. Read all seed package labeling carefully as it contains terms and conditions of sale.
